

# Lightspeed Zulu H-Mod

Lightspeed active noise reduction and premium features for your new *or* existing helmet

Helmet wearers can now experience the same remarkable Lightspeed **comfort, quiet, clarity, and advanced features** that have made Lightspeed the choice of private and professional pilots around the world for over 20 years — with the security of a **3-year warranty!**

The Zulu H-Mod installation brings the legacy of the popular Lightspeed Zulu headset family into an engineered solution for your helmet. Designed to fit a variety of models, the Zulu H-Mod installation is useful in many applications. Consider a retrofit installation if your helmet still has some years left, or add it to your purchase of a new helmet.

## Features and benefits of Lightspeed Zulu H-Mod

- **Legendary noise reduction and acoustic clarity** — Enjoy fatigue reduction and clearer communications enabling you to focus on flying and the mission at hand.
- **Engineered for comfort** — Plush ear seals with abundant surface area are designed for comfort on long duty days — even while wearing glasses.
- **Bluetooth connectivity** — Enjoy excellent call clarity, music fidelity, and wireless access to critical audio alerts from aviation apps on mobile devices.
- **3-year warranty** — Zulu H-Mod is backed by a three year factory warranty.
- **Quick disconnect cable** — Experience more convenient egress with Lightspeed's exclusive detachable cable system. This quick disconnect has a 9-pound pull force (4 kg), and makes emergency egress even safer.
- **Kevlar reinforced cable system** — Stronger and more flexible than standard cables, these rugged cables have proven themselves for durability, stay out of the way, and weigh less than traditional or coiled options.
- **ComPriority™** — Never miss important radio communications with patented ComPriority, which lowers the volume of any auxiliary device automatically during radio or intercom transmissions.
- **Auto Shutoff™** — Lightspeed's proprietary Auto Shutoff feature saves battery life by automatically shutting down the power when not in use.
- **High and low impedance options** — Whether you fly military or civilian, Zulu H-Mod can be adapted to your mission.
- **Multiple connection options** for any helicopter or fixed wing aircraft.

### The Zulu H-Mod installation includes:

- A fully engineered ANR solution for fixed wing and rotor helmets
- 3-year factory warranty
- Strong and flexible Kevlar reinforced cable assembly
- Integrated Bluetooth® for phone and music
- Quick disconnect for convenient egress
- Expert factory-certified installers

I got to use the Zulu H-Mod on a rotor flight the other day and WOW. Phenomenal. Very comfortable and the noise cancelling is incredible. On our back leg I forgot to turn on the ANR. Half way through the flight I turned it on and it was like someone muted the TV!
