

AV-1 KOR HELMET with SHROUD

Our aviation helmet is made out of a fiberglass composite, utilizing Koroyd® and an anti-microbial comfort liner making it the lightest aviation helmet on the market. Features Fire Retardant trim and a FIDLOCK™ buckle system.

- **Airflow Comfort Liner** -Is a breathable material that promotes air flow circulation and cooling.
- **Lightweight** – When mounted to your flight helmet, our Shroud system is great for those looking to keep weight down and stay protected.
- Made from Fire Block, a fire resistant composite, & Ariaprene, this moisture wicking liner draws sweat away from the wearers head.
- **Pure Optics Goggle** -The Anti-fog UV lens provides premium optics, reduces glare & supports a wider field of vision.
- **Flow-Vents** - Promotes ventilation and enhanced cooling with strategically engineered exhaust ports designed to pull cool air in & push hot air out.
- **Fidlock®** -Quick Release allows the fasteners to be conveniently opened and closed single handedly.
- **PolyFusion Shell** -Is the first line of impact defence and is designed to withstand the impact forces you'll encounter inside the cockpit. In addition, this shell is engineered to maintain structural integrity in extreme temperatures.
- **Headset integration** -The AV-1 KOR's shell is designed to fit a wide variety of communication units to suit the wearers aviation needs.
- **Gloss & Matte Carbon** – Carbon Shroud is available in both Matte & Gloss sheen.
- **Carbon Fiber construction** – Strong & lightweight, our Carbon Shroud is made with the pilot's needs in mind.
- **Single-hand operation** – Utilizing our tabbed lens system, you can easily raise & lower your shroud lens.
- **Unique mounting/pivot system** – Molded from high-strength polymer, there are no knobs or buttons. Our unique mounting hardware is easy, simply find the tab and adjust as needed.
- **Sleek, stylish, and easy** – The Carbon Shroud brings another level of comfort & style to our AV-1 KOR flight helmet.
- **Interchangeable optic lens** – Removeable and replaceable lens capabilities.
- **Helmet Finish options:** Matte Dark Grey, Matte Black, Gloss Black, Matte White, Gloss White, Gloss Red, Gloss Blue, Gloss Yellow & PolyFusion or Carbon Fibre Shell
